# 2018 SUMMER Reading

June is Summer Reading Month, and we have plenty of great titles to entice young readers! Reading throughout the summer will also combat the dreaded "summer slump," when students can lose academic skills while they're out of school for summer vacation. In fact, it's estimated that there's an average loss of 22 percent of instructional time each fall for students who haven't maintained their skills.

There's an easy solution, however: studies show that reading just four to six books per summer can help kids maintain skills, prevent a drop in test scores, and be ready for learning come fall. So plan ahead for Summer Reading Month, and help your students keep their educational edge!
